SUMMARY

DevOps Consultant with around 4 years of experience in cloud technologies, infrastructure optimization, and enterprise software development. Proficient in Python, Apache Kafka, and SAP ABAP on HANA. Actively leading a team of 5 in India and co-leading a team of 9 in Poland for 2+ years.

EXPERIENCE

CAPGEMINI

Consultant | BMW

Apr 2024 – Present | Mumbai, India

- Achieved the Client Champion Award for H1 2024.
- Represented my team in Munich, Germany, in BMW Headquarters for crucial Business-related processes, summarizing and planning for the subsequent Quarters, and brainstorming future plans, infrastructure and requirements.
- Played a key role in major Architectural designs for new interfaces with other BMW components and Government organizations.
- Consulted with other teams to jump start cloud-technology adoption and solutions throughout the company.

Associate Consultant | BMW

Oct 2022 – Mar 2024 | Mumbai, India

- Achieved the Delivery Star Award for Q1 2023.
- Promoted to Team Lead of the Aftersales Division team.
- Initiated a major component design with the first Apache Kafka-based interface for the Aftersales Division. This included creating a Proof-of-concept in Python, collaborating and leading the Java team to design a middleware around the PoC.
- Further investigations and optimizations for SAP interface improvement for the Business, in order for them to work with increasing volume of Vehicles.

Senior Analyst | BMW

Aug 2021 – Oct 2022 | Mumbai, India

- Starting as a Junior DevOps Engineer, Initially worked on foundational projects but gradually took over crucial tasks within the team.
- Working in the Aftersales Division of BMW, improving and optimizing the system to deal with increasing volume of Vehicles
- Primary work included handling basic Ops-related tasks (Incidents, Problems, Known errors).
- Slowly shifted focus to the Infrastructure side of the project and our component, where my Linux administration skill helped me work with critical server components.

MRINQ TECHNOLOGIES LLP

Summer Intern

May 2019 – Jul 2019 | Goa, India

- Developed an Electronic Components' Inventory Management Software based on PyQt5 (frontend) and xlsx or csv file based entry and database system.

EDUCATION

NIT GOA

Goa, India

BACHELOR OF TECHNOLOGY IN
ELECTRONICS AND COMMUNICATION
ENGINEERING

CGPA: 8.04 / 10.0

LIONS ENGLISH SCHOOL

DNH, India

HIGHER SECONDARY

Percentage: 94.6 / 100

SECONDARY

CGPA: 9.0 / 10.0

SKILLS

PROGRAMMING

SAP ABAP on HANA S/4 • Python

C++ • Java

TECHNOLOGIES

Git • Docker • Control-M

Linux • S3 • Apache Kafka

NETWORKING

Cloudflare • Tailscale

LIBRARIES

FastAPI • Celery

Typer • Confluent Cloud

Vapoursynth

DATABASE PLATFORMS

Redis • Postgres

Oracle • HANA

MySQL • MongoDB

EXTRAS

API testing • Automation

FFmpeg • Video and Audio Encoding

Adobe (Pr, Ae, Ps, Lr, Ai)

Photography • PC Building
